PANORAMA ROOM DIVIDER
WITH AUTOMATIC ETHANOL BURNER

*Net Zero fireplace with **BEV** Technology®*

HEAT DISTRIBUTION VENTS

Panorama fireplace comes with a complete set of components for an efficient distribution of heat.

TRUE ZERO CLEARANCE

The feature that allows you install the fireplace in a housing construction made of combustible materials and even hang a TV above the fireplace.

min. 220 cm
above the floor level

NEW AUTOMATIC BURNER

The new burner with the patented BEV Technology® gives a much deeper and richer flame. It is the most advanced product in the industry ensuring the cleanest burning process without any smoke, smell or ash. The flame is produced by combusting ethanol vapors and has no direct contact with the liquid fuel.

GLASS-ENCLOSED

Panorama fireplace is closed behind durable tempered glass panels. The top surface of the fireplace can be coverd with the included glass foam pebbles to increase its aethetic value. As an option the burner can be decorated with ceramic logs or white stones.

min. 50 cm

EXTERNAL CONTROL PANEL

The fireplace has an intuitive control panel with an inlet for automatic refuelling. The panel has a 2.5m-long wire and can be installed vertically on a wall next to the fireplace above the burner.

REMOTE CONTROL OPTIONS

Control the fire with the included remote, app on your smartphone or a home automation system (Smart Home System).
